List of Countries Requiring Deferral for COVID-19

Donors who report recent travel to countries with an outbreak of 2019 novel coronavirus (also called COVID-19) or in the same region as a large outbreak will be deferred due to a possible risk of exposure. The list of countries below are at risk for COVID-19 and require a 4 week travel deferral. Deferral is for 4 weeks (28 days) from most recent date of departure from the affected countries.
